**Brilliant Students in the Spotlight**

**高三1 陳彥睿 錄取 高雄醫學大學 牙醫系**

When through the first stage of the examination of high medicine teeth, my heart is complicated. I was happy to get the admission ticket, but to worry about the upcoming audit materials and interviews. What if I am not accepted? A delay is predicted on the preparation of the progress of the examination and thus I can not concentrate on the progress of the school curriculum. It's a very disturbing dilemma, but this is half the chance of success. When determining your ambition, you should go all out.

It's a very rusty experience for me to have an interview. The key to maturing interview is to have a smooth mouth, natural manners, and the most important thing is to overcome the tension. I tried to collect relevant information, and constantly practice again and again. From the collection of documents for review information, including motivation, personality, hobbies, the most sense of achievement, the school admission of the three reasons, and also the near, medium and remote in-school curriculum planning. And it's hard to limit each item to 100 words for full expression.

Thanks to the teacher, classmates, Dr. Guo's guidance and assistance exercises, as well as the support and encouragement of family and friends, let me more confident to complete the interview and can successfully admit high medical teeth. Life is like a baseball game, rapid change, there is always unlimited possibilities. As long as the spirit of indomitable, and strive to adhere to the end. The results regardless of success or failure, every walk must leave traces. I believe there must be insight of the harvest. The results will be particularly sweet.

**高三1 李國業 錄取 國立台灣大學 機械工程系**

Hi, everyone. I'm the person who got full marks in four different subjects in GSAT, and I was accepted to NTU ME thanks to Star Plan. I'm here to write something due to Star New's invite. As a traditional Science and Engineering student, I would like to write my experience with a list.

1. About Learning Environment. When studying, please keep away from your cellphone. If you want to listen to music, use a CD player instead. After you finish your study, you may use your cellphone as long as you can.
2. About Notes. Write by yourself if you could, which will help you remember emphasis more quickly. Of course, you may refer to other's notes before you do one. By the way, I have uploaded my notes to a well-known app "Clear". You can use them if needed.
3. About Break. Please have enough sleep. And that's the most major requirement if you want to study effectively.
4. Before Exam. Don't be too worried. Take me, for example, always looked absent-minded a month before GSAT. The only thing I did was write a few topics to keep my feel.
5. About Exam. Please check your answer carefully. When it comes to handwriting, write your words as neat as possible.
6. Ending. Once people get their news, many of them might look at pictures only and said, "Wow, why that person looks so funny?" However, once you have reached this sentence, congratulations, you have absorbed lots of information in a few minutes.

**觀三1 林育均 錄取 台北科技大學 材料及資源工程系**

With the "Multi-Star Project", I was accepted to my ideal university. You may wonder know why I chose an university which has nothing in common in my major. During the study years in HHSH, I not only fully absorb all the expertise from my major but also actively made good use of my leisure time participating in summer or winter camp.

Through the experience, it broadens my horizon and meets the students from different countries. Interacting with them in group discussion and problem-solving activities, I realized that there's plenty of room for improvement me and the necessity on stepping out of the comfort zone.

Furthermore, "Explore yourself, Understand yourself" is also very critical. For example, I worried that the lack of Biology knowledge would be an obstacle to the experimental operation. However, I found if I kept an open-minded and diligent heart, I could come across all of the unknown fields. Afterwards, the sense of achievement flew into my heart because I made it in the end!

Last but not the least, I would like to share with you "Choose what you love, and stick to it even it is tough".

**【綻放·興華】 "Blooming-Hsing Hwa"**

All the teachers and students in HHSH are versatile. Feeling every part of the campus from the children's perspective, and the children made this music video which includes producing and directing by themselves. The teachers support them behind the scenes and let the children create. This high-level MV "Blooming-Hsing-Hwa" will let you down and must catch your eye. We look forward to seeing you!

## Mystery of Love

By Suffans Steven

Oh, to see without my eyes  
閉上眼我仍能清晰回想  
The first time that you kissed me  
初次你親吻我的模樣  
Boundless by the time I cried  
灑堤的眼淚

I built your walls around me  
我將你的保護牆築在我周圍  
White noise, what an awful sound  
白色的噪音 擾人心弦

Fumbling by Rogue River  
踉蹌地在Rogue河中  
Feel my feet above the ground  
感受我飄離地面

Hand of God, deliver me  
上帝之手 領我走吧  
Oh, woe is me  
嗚 我呀

The first time that you touched me  
想起第一次你觸摸我  
Oh, will wonders ever cease?  
對你的渴望 會有消逝的那一天嗎?

Blessed be the mystery of love  
感謝這神秘愛的存在  
Lord, I no longer believe  
上帝 我不再相信

Drowned in living waters  
將我淹沒在生命泉水裡吧  
Cursed by the love that I received  
受懲罰於我選擇的愛

From my brother's daughter  
從我兄弟的女兒那  
Like Hephaestion, who died  
像是死去的赫斯費提翁

Alexander's lover  
亞歷山大的摯愛  
Now my riverbed has dried  
如今我的河床已經乾涸

Shall I find no other?  
我還有再一次找到愛的機會嗎?  
Oh, woe is me  
唉 我呀

I'm running like a plover  
我像千鳥般奔飛  
Now I'm prone to misery  
我感到絕望

The birthmark on your shoulder reminds me  
你肩上的胎痕提醒我  
How much sorrow can I take?  
我還能承受多少悲痛?

Blackbird on my shoulder  
黑鳥在我的肩頭上呀  
And what difference does it make  
當愛情結束時

When this love is over?  
痛苦有何差別?  
Shall I sleep within your bed  
我還有榮幸與你共枕嗎?

River of unhappiness  
難過如河流源源不絕  
hold your hands upon my head  
把你的手 觸摸我的臉

Till I breathe my last breath  
直到我吐出最後一口氣息  
Oh, woe is me  
唉 我呀

The last time that you touched me  
想起最後一次與你的肌膚相親  
Oh, will wonders ever cease?  
唉 愛的渴望 會有消逝的一天嗎?

Blessed be the mystery of love  
這場奧秘的愛

## 興華羽球隊 School Team

## Badminton Training

◎國一2 江秉祐

When it comes to badminton, each member in my school team has a good deal of passion for it. It plays an important role in my daily life. The continuous exercise and training have become indispensable parts of my regular routine.

In order to enhance muscular endurance, my teammates and I keep running either 4 miles three days a week or 1800 meters per week. We also run stairs in LanTan Reservoir on Saturday morning to build up our strength. Though this kind of physical exercise makes me feel nervous and have stomachaches, it makes me stronger the before. In addition, there are a series of training programs such as serving balls, doing some basic skills, moving steps, and doing countless push-ups. We practice and try as hard as possible.

Moreover, we play badminton in Civil Sports Center on Friday to have more practice chances. There are eight badminton courts, so we can play balls at the same time. The coaches would check what we have learned every week in Civil Sports Center.

My family always support me to play badminton. Whenever I finish badminton training, my dad massages my legs to release my muscle every day. My parents also hope I have more practice time for badminton, so they even cancel a lot of camping trips. For example, my parents planned to camp with friends. Then I received schedule from the badminton game. My dad decided to go camping first. The next day, he drove me to enter the competition from the camp site and stayed by my side until the game ended. After the event, we returned to the camp together.

My family are my strong backup and I am deeply touched by family warmth and togetherness. Most important of all, I absolutely adore badminton and I keep my original intention in mind.

## Cohesive Power of Badminton Competition

◎國二4 蔡駿博

"I'm completely exhausted, but I can't give up. I encourage myself. I want to win this game." Cheering arose from my teammates and my coach around the court. They urged me to win this game with loud cheers. Although I fell behind, I did not want to be defeated. I did my best to beat competitor with a lot of willpower. Because of teammates' encouragement and coach's instructions, I eventually won the game.

Speaking of badminton games, we have already played a lot of singles or doubles with other competitors from different schools. No matter who plays badminton on the court, we cheer our teammate as loud as we can. Though he falls behind or plays badly, we still believe our teammate has a chance to win. The game is not over, and our cheering does not end. Our belief is that we can win the game.

When playing in the mixed double, we try our best. We follow our coach's guidance to gain more points for ourselves. We keep calm to deal with every ball and focus on the court. We overcome difficulties, and we cannot be disturbed by anything else. In addition, when our teammates compete with opponents, we stay aside and cheer for them. In the spite of the fact that one player wins the game, our team has not won yet. We have the common goal-all that other teammates also won the games stands for a real victory. So when seeing our teammates play against adversaries, we feel nervous, too. No one knows which team will win. We still hold on our belief, "The ball has not dropped, and we never give up!" At last, we won the game. There is a strong coherence between our school badminton team. Regardless of winning or losing games, our coach carries out a detailed analysis for us and improves every player's skills to make us stronger. I look forward to our next victory.

## THE REFLECTION OF CMSMUN IX WORKSHOP 2021

## 協同模擬聯合國工作坊心得

◎高二2 朱亮澄 張志威

It is our first time to participate in the workshop of Model United Nations conference held by Concordia Middle School, especially the conference which was held in whole English. For this reason, it is very important to prepare in advance before attending the conference. Although the preparations we have done, we thought, were as well as possible, it was still insufficient when we presented there. First off, it is very difficult to grasp and do research about the delegated country and the topic with which we are not familiar; in addition, understanding many proper nouns that I have never known before is almost killing us under the limited time to finish the speech draft.

However, simultaneously we broadened our horizons and learned a lot in this process. We found ourselves as ignorant as a newborn baby. The information we collected were extremely foreign to us, and the delegates of Concordia Middle School looked very experienced, and their speaking skill is quite good. When we saw it, we started feeling stressful and nervous, both of which crowded upon my mind. At that moment, we suddenly became a dumb, beginning to regret whether it was the correct choice to participate in this event. Nevertheless, after we gradually understood the whole process of the conference, our nervousness faded away, and we could do better and better.

We are very grateful to Teacher Christopher Guo for telling us this activity, which gave us the opportunity to step out of our comfort zone and see the elephant. As the old saying goes, "There are always people who are better than you." We deeply understand the meaning of this sentence and at the same time it makes us understand our own shortcomings. After seeing the performances of others who are better than we, we must not feel inferior. On the contrary, we should turn it into motivation and continue to improve our abilities. Rome was not made in a day. If the delegates of Concordia Middle School can reach such a level today, they must put a lot of effort into it. We believe that one day we can keep up with them.

◎高二1 陳禹如

On April 24th, I took part in the 2021 Concordia Middle School Model United Nations Workshop. In the conference, I was the Russian delegate of the Chinese Conference-Economic and Social Council I. Although the entire activity of the meeting focused mainly on instructing and imitating the real the process and details of Model United Nation. During the meeting, what impressed me a lot was that only two delegates, including the other delegate and me, voted against the amendment vote. As a result, we were called on the stage to give a speech about our opinion, which was beyond my expectation and which took me by surprise. Honestly speaking, I was nervous and did not know what to do, so I constantly asked the chairs. In response to my doubts, the chairs explained that when there are only a few delegates in favor of or against the amendment, they need to give a speech to explain their reasons. Therefore, I had no choice but to bite the bullet and give my speech without any preparation, ending it in a hurry. After listening to the other delegate's reasonable and persuasive speech, I was regretful due to my inadequate preparation. I also learned that we must have a clear stand and reason when voting. Otherwise, it would be difficult to persuade others to stand in the same position as mine without a powerful reason. In short, I am very happy to take part in this activity. I have learned a lot and met many intelligent and seasoned people.

# FEEDBACK to Advanced Magazine

◎高二2 張志威

*“Celebrating Christmas Around the Globe” (December 2020)*

*Christmas is such a joyful holiday. People around the world celebrate the birth of Jesus Christ. After reading this article, I have learned the background of Christmas and understand that is not only a holiday but also has numerous, significant meanings for everyone. Through this article, to my surprise, I found out that people in different countries have their own ways to celebrate Christmas, breaking through my stereotype of Christmas.*

*Although I am not a Christian, learning the story of Christmas is very interesting. I think that the special, unique holiday is full of love and hope. From now on I can share with people around me what Christmas means to me.*

Sincerely,  
張志威

◎高二2 朱亮澄

*“The Best and Worst Coffee Has to Offer” (April 2021)*

*This article completely overturned my impression of coffee. Before, I thought coffee was just a refreshing drink, but after reading this article, I realized that drinking coffee can bring so many benefits to the human body. For example, drinking coffee can improve brain function and can reduce depression. In addition, it can also make our body healthier. According to research, people who drink coffee are less likely to suffer from diabetes, Parkinson's disease, and more importantly, it can reduce the most common risk of colon cancer in Taiwanese, but it takes the right way to drink coffee to achieve the above results. According to research, there are some harmful substances in coffee that can cause cardiovascular disease, but fortunately filter paper can remove these harmful substances. Therefore, when we drink coffee next time, we should try to drink filtered coffee. After all harmful substances are filtered, coffee can bring many benefits to the human body.*

## Student Works

### The Tortoise and the Hare

◎高一1 侯怡伶

One day, Peter Rabbit decided to hold a race with John Turtle. The one who got to the finish line would be the winner and earned a champion cup.

As the race began, Peter rushed as fast as possible, and John just ran like jogging. Twenty minutes later, Peter found that he could hardly see John, so he immediately lounged against the tree trunk and started to take a small nap with no concern.

Another twenty minutes later, John passed by and noticed that Peter was over there. He was speechless and kept on his way for the championship.

Peter eventually got up and rushed to the finish line with satisfaction. Suddenly, he found that John had been there for a long time. Of course, John was the winner. Peter was shocked and mad at this. He was also very regretful about what he had done. Since then, everyone living in the forest teased and made fun of Peter. It seemed hard to imagine how embarrassed he was.

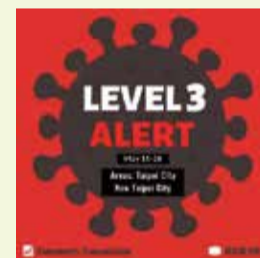

### Beat the Outbreak Virus

◎應一1 劉佑誠

As the world remains the fear of coronavirus, Taiwan is like a parallel world compared to other countries. However, Taiwan has been recently suffering from the spread of local cases. Unlike other countries, Taiwan has its own system to keep the virus eliminated away from the community. However, according to the news report, one of the pilots from China Airline infected others in the Novotel hotel. Due to its high contagiousness, one small negligence can lead to a terrible consequence. Therefore, another risk of community transmission stared at the end of April. Some people in Taiwan had become more and more relaxed and complacent about the risk of contracting the coronavirus before the pilot's case.

The pandemic still exists, there are some tips we can follow under the catastrophe. First of all, wearing a mask is a need for us to protect both others and ourselves. There are still lots of people out there who don't wear mask in public space, it therefore become a good opportunity for the virus to spread, so make sure to wear a mask whenever you go out. Next, keeping social distancing is equally important, keeping social distancing not just ensure our security but also prevent the infection from people. Lastly, don't ever trust any misinformation from any unknown resource, avoiding unnecessary panic is essential as we are often influenced by others feeling, choosing the right information to trust become a common sense in our daily life.

Such being the case, even though we haven't been indeed influenced by the pandemic, we still play an important part in defeating this disgusting virus. Again, we should never be complacent about this pandemic, and be aware of any potential danger.

### What apps should everyone have on one's phone?

◎應二1 吳振群

The increasing use of smart phones has brought their users to download various mobile applications commonly known as mobile apps into the devices. The users used Google Play, App Store and Windows Phone Store to download these apps. We're all relatively familiar with popular options like Facebook, Twitter and Google Maps, and there are a myriad number of apps that go hand in hand with our lives. With the wide-ranging capacity and available of apps these days, searching for a notable app is like looking for a needle in a haystack. I've hand-picked two of the must download apps, and most important of all, you can download the apps free of charge.

Going to a restaurant means changing out of your pajamas, brushing your hair, and driving to your destination. If that sounds like too much of a hassle. Why not stay cozy at home with a movie or games and call for Foodpanda directly deliver your meal to your doorstep. Besides, it's perfectly suitable for my parents too busy to cook to release them from struggling between office working and home cooking. As a foodpanda user, it doesn't mean I want to evade responsibility - wash the dishes, even it's the last thing I want to do. By giving a thumbs up or down and in just a few clicks, it aims to pay the extra fee and get my parents free also and me.

As cooler winds blanket Taiwan, I am keen to have barbecue activities with my family and friends on Mid-Autumn Festival. This year a little bit desolate, I thought of the memories I had with my brother missing this thrilling and glorious gathering. Reminded of the time we had last year, I gazed at the sparkling sparkler with my eyes glazed over. Meanwhile, the bright light appeared in the darkness from my phone, a video call from the person that I just thought of. Hearing the well-acquainted voice used to be, I felt release and got a piece of comfort. LINE app reshapes communication, allowing you to enjoy not only messaging but also free voice and video calls, for me, especially making a video call is an important way of keeping in touch regularly and the relationships are never apart, maybe in distance but never in heart.

The above two apps that I recommended to you are easily to use. The first one, Foodpanda, it would sate your appetite and save your time. The other one, Line, it would relate your familiars and release your mind. Please feel free to download the two must-downloads.

### In what way is Taiwan a culturally diverse nation?

◎外三1 楊堉涵

Taiwan is a multicultural country. Cultural diversity is a fusion of cultures around the world, including different races, food cultures, and genders. Also, cultural diversity is divided into the surface structure and the deep structure. The surface structure refers to the cultural phenomenon that we see in reality. And the deep structure refers to the core value revealed from the surface structure. Here are two points I want to mention today:

First of all, Taiwan is an island surrounded by sea. Taiwan's great geographical location has made some Vietnamese, Malay, Indonesian, and other people from Asian countries have come to Taiwan for work and marriage. Because of the multicultural integration, Taiwan has become a gathering place for diversified food cultures. Taiwanese food culture is so diverse because it not only preserves the local traditional diets but also coexists with foreign cuisines from many countries, such as Vietnamese Noodles, Turkish Shawarma, Indonesian Satay, Korean Kimchi, Thai Milk Tea, and so on. With Taiwanese support and acceptance, foreign cuisine would constantly exist in Taiwan for years. What's more, due to the intersubjectivity, we can see these cuisines coexist in Taiwan in the long term.

Second, Taiwan is the first country in Asia to pass the same-sex marriage bill. Homosexuality cannot be accepted by the world in the past, but today everyone has the right to love freely. In 1912, the first news about the same-sex marriage reported, and people in Taiwan have been fighting for the right and freedom. Fortunately, in Taiwan, the same-sex marriage bill was just passed in recent years on May 24, 2019. On the day, five hundred twenty-six of couples have registered. Due to everyone's respect and empathy, those contribute to significant progress in Taiwan. Everyone has equality and freedom.

In my opinion, owing to Taiwan's special geographical location, foreign cultures do have a huge impact on us. However, with the attitude to multicultural acceptance, Taiwan has changed differences brought by foreign cultures into a new respectful and integrated culture.

109學年 嘉義市英語讀者劇場 **特優** 並榮獲 **優良劇本獎** **2021 English Reader's Theater**

**Cast** .....

國二1 林凱傑 國二2 周育琄  
國二3 郭子源 國二3 陳威廷  
國三2 陳威旭 國三5 侯秉程  
國三5 楊璟曄

**Assistant to Director & Prop Master** .....

高三3吳玥彤 許碩恩 陳燕琴

**Summary**

Drizella, Pinocchio, and the Beast joined the game-escape room-reflection. They had to solve three puzzles before running out of time. The escape room reflected what they are like right now, lazy, dishonest, and shallow, doesn't care about the inner beauty. After solving each puzzle, they learned their behaviors were wrong.

**The Brief Script** .....

Beast	I will put on the simple pair of shoes and catch up you guys. You go first. Hey guys. Look what I have found? The key! It's just right under the simple shoes.
Pinocchio	See, don't be a blind follower and judge a book by its cover.
Chorus	All that glitters is not gold. It is inner beauty that matters.
Drizella	Guys. We are running out of time.
Pinocchio	Oops, 3 seconds left.
Chorus & Game-master 1,2 & Pinocchio & Drizella & Beast	Chorus: Three Game-master 1: They run to the door with the key. Chorus: Two Game-master 2: They put the key in. Chorus: One Game-master 1: They wrench the handle Chorus: Time's up. Pinocchio: We left the room, Drizella :Switch back to the normal people. Beast: Left our past behind. All: We are now the whole new ones.

**School Composition Contest 1st place 國二1 林凱傑**

**The person I admire most is my grandpa**

I admire him most for several reasons. First, he is very hard-working. He still spends eight hours working on his crops every day. He still goes farming even when it's rainy or typhoons hit. Second, he never gives up when he faces difficulties or problems. He will try as many ways as possible to find the solution. For instance, one time, his crops were eaten by wild mice. He was very upset and decided to catch those evil critters. He tried many traps and may baits to catch those mice, but none of them worked. However, he didn't give up and tried more ways. Eventually, he caught the mice by attracting them with cheese's scent. He was so angry at the mice that he shouted at them. However, he didn't hurt the mice and decided to put them back into the wild places. That's also one reason that I admire him. He is so kind-hearted. In conclusion, I really admire my grandpa so much. I hope that I can become a person like him in the future.

**Student Works**

**Happy moment with family** ◎國一4 黃家儀

Today is Sunday. The weather is sunny. My mom wakes Shiau-fong at eight a.m. Shiau-fang's family plans to visit the zoo. There are lots of animals there. The elephants have long noses. Wow! The rabbits are white and cute. The lions are sleeping now, so they need to be quiet. At three o'clock, Shiau-fang is hungry. And there's a store on the corner. "What's that over there?" Shiau-fang says to her father happily and goes toward the dessert store. She eats a piece and drinks a bottle of soda. She has a whale of time there.

**A Thief Monkey** ◎國一4 蘇品薰

On a sunny weekend, Alice and her family go to the zoo. All the animals are cute. When they are visiting the zoo, Alice feels hungry and zips off the backpack and tries to take out the banana. A monkey sees the banana and rushes to Alice. Although she feels scared, she still tries to protect the food. She holds the backpack tightly, but the monkey grabs it and runs away. It's a pity that she can't take it back. But Alice reminds the memory of what happens today, she thinks it's interesting and hopes to visit the zoo again.

**My Favorite NBA Player** ◎國二3 何昱慶

I am fond of basketball. Not only do I like to play basketball, but I also often watch NBA games on TV. My favorite NBA player is Stephen Curry, who is the greatest shooter in NBA history.

Both of his parents are athletes, and so are his brother and sister. His father and brother are also NBA players. Stephen Curry is on Golden State Warriors team. He and his teammate, Klay Thompson, are called "the Splash Brothers" because they are good at throwing three-point shots.

The reason why I like Stephen Curry the most is because he is not only active but also outstanding. Moreover, he is skilled at dribbling, passing, shooting, and he practices playing basketball hard every day. Although he gets hurt often, he tries very hard to recover from it. He does his best to reach his goals. He has set a good example for all of his fans.

So far, he has won NBA championship for three times. As one of his fans, I am proud of his accomplishment whenever I see his team win. I hope that he can stay strong all the time. I want to learn from him and become a great player like him.

**My Favorite Exercise** ◎國二3 陳威廷

When it comes to exercise, I absolutely adore dancing. I have learned dancing for six years since I was a third-grader in elementary school. In order to become a professional dancer, I practice it after school every day and spend most of time dancing from the third grade. Dancing means a lot to me. I think everything has turned out worthy when I dance.

I am in the eighth grade at present. I still practice dancing hard every day. I am learning Ballad now. As far as I am concerned, Pop and Jazz dancing are much more interesting, and I love them so much. The more times I dance, the more fun I have. I hope I can become a great and illustrious dancer and take this advantage to have a successful dancing career in the future. I hope this dream will come true. I will practice dancing continuously in my junior life.

**Live in the Internet World** ◎國三4 陳予勻

Advanced technology had led us to a new level. Nowadays, people can connect themselves to the world only by a click on the mouse. With the Internet, we can retrieve knowledge instantly, and have the ability to travel to an exotic country just in a second. While searching on the Internet, I felt as if the world were under my feet. These days, a lethal pandemic has posed a threat to numerous people's health. But thanks to the Internet, we can renew the information in a fraction of a moment, and that indeed, lets us able to take precaution before the epidemic get worse.

With so many advantages, Internet, however, can be a double-edged sword. Dozens of teenagers were kidnapped due to the rampant widespread of social media. Lots of adolescents became the victim of child adoption because they're eager to hang out with their new-met "friends", who are disguised danger hidden in the back of the screen. Moreover, cyber bully is also a common problem in the youngsters' society. Those bullies feel that they can say anything mean since they're typing through the computer instead of expressing it out loud. Many think that it's not a big deal, but it may become a scar that can never be healed in the victims' vulnerable hearts. Last but not least, the flourishing Internet world also means the loss of privacy. Some tech geek might become too obsessed in the virtual world, then seek excitement by solving codes and paralyzing websites. Those hackers sometimes make companies lose a huge amount of profit, or worst, affect our country's confidential information.

To sum up, the prosperity in Internet can definitely make our life more convenient, but we should also be aware of its drawback. By being alert while using the Internet, it can let us strike a balance between the better life Internet provides and the unpredictable threat it may bring.
