

# Kaohsiung Municipal Wunshan Senior High School

## School Vision

The school's vision is humanities, technology, international outlook, and creativity. In line with the spirit of the new syllabus, the school has developed multiple elective courses, revised compulsory courses and flexible learning courses, and set the development vision as "cultivating high-quality citizens with positive 5 C personality traits" (C is the character force; the key to the 21st century Ability, communication and coordination ability Communication, teamwork ability Collaboration, complex problem solving ability, Complex problem solving ability, independent thinking ability, Critical thinking, Creativity).

## International Projects

Our students always participate in different international projects and virtual classes. They often receive different honors.

# Student Image

Based on the school's vision, the school defines six abilities that students should achieve, namely Action Ability, Reading Ability, Expression Ability, Creativity Ability, International Capacity, Aesthetic Ability, respectively expressed as follows. Action capacity includes four indicators: applying what you have learned, problem solving, field implementation and sustainable care. Reading ability includes indicators such as logical analysis, critical thinking, systematic thinking and learning transfer. Expressiveness includes indicators such as self-awareness, communication, oral expression, and graphic communication. Creativity includes indicators such as curiosity exploration, resource integration, decision-making execution, and innovative applications. International power includes four indicators: language learning, cultural understanding, international competition and cooperation, and global responsibility. Aesthetic power includes indicators such as aesthetic control, design planning, life application, and taste of life.

# International Partners

## Denmark

We have online conferences with our sister school in Denmark and we regularly visit each other every year.

## Japan

We regularly collaborate with our sister school- ISE High School for science projects and we also work with Toyama Minami High School on online conferences on different international issues.

## Fairmont International School

We collaborate with Fairmont, providing students with du-diploma program. When they finish Wunshan, they can also get diploma from Fairmont International School, the United States.
